

MODEL No.

REC-200MX

Non-insulated terminals: 14, 22, 38, 60, 70, 80, 100, 150, 200 mm²
 Angle beam fabricating attachments and many other attachments

REC-200MX shown with BP-70EI

SPECIFICATIONS

Ram stroke : 17 mm
 Motor : 14.4 VDC

Reservoir capacity :
 60 cc
 Force at die face :
 127 kN

SIZE

345 (L) x 250 (H) x 75 (W) mm

WEIGHT

5.1 kg (less battery)

ACCESSORIES

Shoulder strap,
 Plastic carrying case,
 Indenting dies,
 Nest : Nest wheel & 200 die
 Indentor : 14, 22, 38-70, 80-150, 200
 (5) pieces
 Battery and Charger
 (See selection chart on page 38)

REC-200MX (Crimping attachments)

FEATURES

The REC-200MX is a multipurpose battery operated tool suitable for various type of crimping, cutting, punching and angle beam fabricating operation.

Available attachments are 14 kinds and the REC-200MX comes standard with rotary type crimping head, 200 mm² Yoke-nest and indentors suitable for up to 200 mm² crimping terminals.

Attachments are mounted on the tool head by inserting two lock pins located at the cylinder head for easy changeover.

The control buttons are activated by only one hand so that other hand is always free to hold working material.

Powerful output of 127kn makes various type angle beam fabrication possible.

ONE TOOL DOES IT ALL !

REMARKS

Specify charger input voltage.

Following attachments are available separately

- 200AT-13WT : Threaded bar cutting attachment
- 200AT-S16 : Rebar cutting attachment
- 200AT-50YC : Cable cutting attachment
- 200AT-15B : T connector compression dies
- 200AT-9PD : Knock out punching attachment
- 200AT-AP18 : Angle beam punching attachment
- 200AT-AC506 : Angle beam cutting attachment
- 200AT-AVC506 : Angle beam V cutting attachment
- 200AT-AB506 : Angle beam bending attachment
- 200AT-DCM : Raceway cutting attachment
 (150AT-DCM +200AD-DCM)
 Hexagonal compression Dies
